

I support media diversity

Regarding Docket No. 02-277, The Biennial Review of the FCC's broadcastmedia ownership rules:

The merger of media outlets has already affected the quality of programming in my area. Too many stations play the same songs in rotation.

Even more important than repetitive playlists is the lack of diverse views on both local and national issues. How can I be an informed citizen if only one view is disseminated?

I ask you to retain the current rules.

Sincerely,

Sandra Williams
